### **Whisper Love:**

*Two people who don't need anyone else to know how much they love each other.*

#### **Lyrics**

It doesn't shout it from the roof  
It doesn't need that kind of proof  
There is no need for wearing shades  
Unseen the orchid in the forest glade  
It's a whisper love, a whisper love

There is no haste in spending time  
All I do has you in mind  
It is wild and it is tame  
It doesn't do it for the fame  
It's a whisper love, a whisper love

Wall to wall we've love beneath our feet  
It's built for strength and not for speed  
The silent love is off the scale  
Who cares that no one noticed us set sail  
On a whisper love, a whisper love

### **Rosalind**

A guy's hard life has challenged and changed him, he settles down with someone, and then his old flame Rosalind suddenly reappears. This isn't autobiographical and her name wasn't Rosalind.

#### **Lyrics**

I can hear the same feeling, see the same sigh  
As we mix up the moments, let the birds hit the sky  
A djinn in the ether and a whirl in a wave

It's a meeting in midstream of fortune and faith

Memories alter with distance and damage  
You could call them an influence, you could call them all baggage  
Life in a band gives me something to do  
Even if it's not mine now it's not up to you

Rosalind how can you come back to me  
Now that I've promised another to be here  
Forever and love her through hard times and wealth  
The one that you wanted is now someone else, Rosalind

You've got to choose what fails you or fills you  
It's yours she said it might cure you or kill you  
My life was so bland I gave no resistance  
They kept me online, they said I'd be free

Took decades to learn I was doing the right thing  
But for all the wrong reasons, bowing to the wrong king  
They offered me nothing but smoke in a box  
And asked me to thank them while I hammered the rocks

Rosalind how can you come back to me  
Now that I've promised another to be here  
Forever and love her through hard times and wealth  
The one that you wanted is now someone else, Rosalind

I'm just sliding an incline, it's as slow as you want  
I'm hiding from time, but there is only one,  
Joining the dots but each one takes a year  
I hear the hush as the sand disappears

Rosalind how can you come back to me  
Now that I've promised another to be here  
Forever and love her through hard times and wealth  
The one that you wanted is now someone else, Rosalind

### **Do you mean it?**

*He's unassertive, she's apprehensive and they're both really into each other*

### **Lyrics**

A likely story, face to face with my dream

I never wrote a word beyond belief

She said something banal and I agreed

And then she turned away, but didn't leave

I paused while I figured it out

and I went to where she hoped and I thought out loud

I put my hand on her shoulder, then she swayed

And leaning in to me she let it say

She said Do you mean it, what you're doing to me? Do you mean to rock  
my world?

You don't have to steal it, it's only me, do you mean to rock my world?

I told her, there's less to me than meets the eye

Settle here and tell me what I like

She said I can see you from my hill of haze

The high grass around you hides the way

I will show you if you ask yourself alone

When the gambler ditches all the dice

I will join you if you tell yourself alone

The rash pursuit of romance has a price

So do you mean it, what you're doing to me? Do you mean to rock my world?

You don't have to steal it, it's only me, do you mean to rock my world?
